CASE STUDY

MAZERATI CAR SHOWROOM FLOOD DAMAGE

Ideal Response were called out to an emergency at a Maserati Car Showroom in South Kensington, London. Our quick response ensured that the flood damage was minimal and there was only minor disruption to our client's businesses.

THE PROBLEM

Ideal Response received an urgent call from Mr. Longfield, a member of staff at the Maserati dealership. Water was pouring into the showroom from a storm drain and they needed emergency assistance to remove the flood waters.

THE IDEAL SOLUTION

Ideal Response arrived on scene early the next morning to begin the flood clean-up process. Our highly trained specialists carried out complete water extraction, flood decontamination and sanitization and thorough carpet cleaning. Several air mover and industrial dehumidifiers were also installed to speed up the drying out process.

Some parts of the building were locked, so our dedicated team returned to site the next day to assess and clean two further office areas. Our dehumidifiers remained on site for a further week to ensure that the building was completely dry and there was no risk of secondary damage such as mould.
